Care For Work Environments®

PRODUCT OVERVIEW :

TKO Granular Weed Killer is absorbed into the soil and taken up by the roots of weeds, inhibiting photosynthesis and preventing weeds from growing back. Once absorbed, the herbicide creates a barrier of control, stopping future weed germination and growth, making it a powerful total kill solution for large areas.

EASY TO APPLY

Simply apply the granules to the soil after rainfall or water them in for activation. This product is safe for animals and humans after the dusts have settled.

RECOMMENDED USE AREAS:

- Fencerows
- Storage yards
- Industrial sites
- Railroad rights-of-ways
- Non-cropland areas

DIRECTIONS FOR USE :

Apply using a seed spreader, fertilizer spreader, or shaker. Use 200–300 lbs. per acre or 1 lb. per 150–215 ft² for smaller areas. For best results, apply early in the season directly to the soil for root absorption. Reapply as needed for deep-rooted perennials. In arid regions, apply just before the rainy season for maximum effectiveness. Can be used year-round.

TECHNICAL DATA :

APPEARANCE: gray granules

ODOR: Mild

ACTIVE INGREDIENT:

Bromacil (5-bromo-3-sec-butyl-6-methyluracil).....4.00%

FLASH POINT: None

REGISTRATION: EPA Reg. No. 10088-76-70799

PACKAGING

129290	3 LB Bottle/EA1
129291	3 LB Bottle/CS6
129292	50 LB Keg
