

INDUSTRIAL CLEANING *Solutions*

- Triple action: cleans, degreases and deodorizes all with a pleasant citrus fragrance
- Can be used on virtually any washable surface
- Can be diluted to match any cleaning job

CARE FOR WORK ENVIRONMENTS®

TRIPLE-O[®]

ALL PURPOSE CLEANER

POWERFUL

Triple-O[®] is a powerful three-in-one product that cleans, degreases and deodorizes. Its water-soluble formula quickly and effortlessly cuts through dirt, grime and grease to clean a wide variety of surfaces. Triple-O[®] provides a pleasant citrus fragrance to deodorize the area.

VERSATILE

Triple-O[®] can be used on virtually any washable surface in both housekeeping and industrial maintenance settings. Use to clean and degrease walls, floors, appliances, woodwork, porcelain fixtures, vinyl, plastic, outdoor furniture, ceramic tile, exhaust fans, chrome surfaces, coils, stainless steel, windows, equipment and much more. Triple-O[®] can also be applied using a variety of different methods including mopping, spray bottles, pressure washing, or hot or cold soak tanks.

ECONOMICAL

Triple-O[®] can be diluted at various strengths to match any cleaning job. Use a light dilution for general cleaning applications, or a heavy dilution for tough soils such as grease, oil, carbon and creosote.

DIRECTIONS FOR USE

Please review label and SDS for all product directions, precautions and first aid information.

Recommended dilution:

General Cleaning: 2 ounces/gallon of water (1:64)
 Heavy Duty Cleaning: Up to 21 ounces/gallon of water (1:6)
 Coil Cleaning: 10 ounces/gallon of water (1:13)

Apply mixed solution onto dirty surface. Scrub or agitate to activate cleaning action.

Allow Triple-O[®] to work 2 to 3 minutes. Rinse with water as necessary, or wipe with a rag or sponge.

Note: Will not attack aluminum. Inhibitors are present to prevent rusting. A cleaning solution too concentrated can have a dulling effect on certain paints and inexpensive-grade varnishes and plastics. It is recommended to first try the cleaning solution on a small area before use.

TECHNICAL DATA

APPEARANCE: clear, orange liquid
FRAGRANCE: pleasant citrus
pH (1:20 solution): 11
STABILITY: two years
VOC CONTENT: less than 0.5% at 1 to 6 dilution
