- Cleans and restores dull surfaces
- Keeps surfaces protected from normal wear and tear

CARE FOR WORK ENVIRONMENTS®

State Custom Wipes™

Leather & Vinyl Cleaner RTU

Exposure to light makes color fade, while heat causes materials to harden and crack. State Custom Wipes™ Leather and Vinyl Cleaner RTU utilizes four-way technology to restore, beautify, protect and polish soft surfaces exposed to the elements. This product was developed specifically for use in our State Custom Wipes system. The easy-to-use application allows you to wipe your surfaces in one quick and swift motion. There's no need to spray and wipe the surfaces anymore!

Restores: Penetrates soft surfaces to create a like-new appearance. Materials once again become soft.

Beautifies: Enhances visual appearances and revitalizes dull surfaces.

Protects: Guards against destructive light rays, both indoors and outdoors, while also repelling dust, dirt and moisture.

Polishes: Creates a luxurious, polished finish that keeps surfaces glossy while providing protection from every day wear and tear.

EXCLUSIVELY FOR STATE CUSTOM WIPES

This product has been developed and tested to be used exclusively with our State Custom Wipes system. This application allows for easy wiping of surfaces, such as cars, furniture and more. With no more than one quart of product per canister, you'll get on demand wipes that are ready to use whenever needed. The wipe will be moistened, but not over saturated and dripping, so as not to harm the surfaces being cleaned.

APPLICATIONS

State Custom Wipes Leather and Vinyl Cleaner RTU is ideal for use on leather and vinyl surfaces, office equipment, seats and dashboards. It can also be used to restore treated leather, formica and fiberglass surfaces.

DIRECTIONS FOR USE:

State Custom Wipe Leather & Vinyl Cleaner RTU is to be used only with the State Custom Wipes.

Make sure to wear all proper Personal Protective Equipment (PPE) before and during handling, and wash hands after handling.

FOR ONE GALLON CANISTER

Remove the lid of the State Custom Wipes canister. Place a roll of wipes in the canister. Wearing proper Personal Protective Equipment (PPE), pour about one full quart of product evenly over the top of the wipes. Once poured, reach inside the canister to the middle of the roll of wipes through the hole in the center of the lid. Press the flap down firmly to close.

FOR SMALL CANISTER

Remove the lid of the State Custom Wipes canister. Place a roll of wipes in the canister. Wearing proper Personal Protective Equipment (PPE), pour about 1/3 of a quart of product evenly over the top of the wipes. Once poured, reach inside the canister to the middle of the roll of wipes through the hole in the center of the lid. Press the flap down firmly to close.
