CARE FOR WORK ENVIRONMENTS®

# Ecolution® **CARPET CLEANER**

## VERSATILE

Ecolution® Carpet Cleaner can be applied four different ways: for carpet extracting, bonnet cleaning, pre-spray and spot cleaning. The unique dilution feature of Ecolution Carpet Cleaner simplifies product selection and controls costs.

## CLEANING AND ENCAPSULATING POWER

Ecolution Carpet Cleaner's superior cleaning system is formulated for tough residue and trapped soil removal. It can be used for spot and spill removal or restorative deep cleaning. An encapsulating agent is included to trap any sticky or oily residue left over after cleaning so that the carpet won't attract dirt and soils. The two-part system first cleans and then eliminates re-soiling to keep the carpet looking cleaner for longer.

## HIGHLY CONCENTRATED

Ecolution Carpet Cleaner is highly concentrated to help achieve cost savings by using less product. By using it through a One Solution™ dilution system, it guarantees the proper mixture every time with no overuse of the product.

## DIRECTIONS FOR USE

1. Vacuum area to be cleaned thoroughly.
2. Dilute carpet cleaner with cold tap water as directed below.
3. Follow cleaning machine's operating instructions.
4. Once carpet has dried, vacuum thoroughly to remove remaining cleaning residue to prevent re-soiling.
5. Open the area to traffic.

## DILUTIONS:

Extraction Cleaning: 4 oz/gallon

Bonnet Cleaning: 10 oz/gallon

Pre-Spray and Spot Cleaning: 8 oz/quart trigger sprayer

**NOTE:** Test in an inconspicuous area. Place aluminum foil under legs of furniture while carpet is drying to prevent rust spots.

## TECHNICAL DATA

**APPEARANCE:** Milky white liquid

**pH (CONCENTRATE):** Approximately 9.0

**DENSITY:** 8.6 lbs/gal

**SHELF LIFE:** two years

## PACKAGING

121612	5 GL Pail
