ENZYME DETERGENT

POWERFUL DETERGENT

Pyxis™ Enzyme Laundry Detergent has a neutral pH and is fortified with an expansive blend of surfactants making this detergent a powerful performer on a broad selection of soils and stains.

HOW IT WORKS

A unique blend of enzymes target specific problems leaving linen and fabric cleaner. Protein based stains, starch based stains, grease based stains and even fats are quickly broken down and carried in a solution to the drain during the wash cycle, rather than requiring individual spot treatment. A special enzyme eliminates pilling of cotton fibers leaving a cleaner, crisper fabric surface.

MARKETS SERVED

Ideal for long-term care centers, food service, hotels, healthcare, correctional facilities and fire stations/emergency response. Pyxis Enzyme Detergent is compliant with NFPA's 1851 guidelines on turnout gear care.

WASHING RECOMMENDATIONS

Recommended wash time of 6 to 12 minutes.
Preferred washing conditions: 95°F to 115°F

In order to benefit from the enzyme activity there should not be any bleach present during the 6 to 12 minute wash time. However, bleach can be added in subsequent wash cycle.

TECHNICAL DATA

APPEARANCE: clear amber liquid

ODOR: clean

WEIGHT: 8.4 lbs/gal

PH (concentrate): 7.5-8.5

ENZYMES: Protease, Amylase, Lipase, Cellulase, Mannanase

WATER TEMPERATURE: enzymes stable up to 180°F
