DESTAINER

- 12.5% concentration of bleach
- Brightens whites
- Removes stains from fabric

YOUR CLEAR RESULTS PARTNER[®]

Pyxis™ Laundry Solutions DESTAINER

Pyxis Destainer is a concentrated bleach based formulation designed to brighten white and bleach-safe fabrics. It's concentrated formula provides cost-effective wash brightening with a typical application use of 2 - 4 ounces per load. It works for common stains, such as coffee, grass, red juice or wine stains. Pyxis Destainer also removes perspiration and body fluid stains common detergents may not completely remove.

DIRECTIONS FOR USE

Use Pyxis Destainer for top loading institutional laundry machines. To brighten whites add 2 - 4oz per wash load. PYXIS DESTAINER IS NOT SAFE ON COLORED FABRICS. For colored fabric, use Ecolution Laundry Brightener.

For additional laundry cleaning and enhancement, use these products:

Pre-Spotting: Ecolution® Po₂wer , a powerful oxygenated pre treatment spotter.

Color-Safe Brightener: State Po₂wer concentrated powder additive, oxygenated brightener and stain remover.

Fabric Softener: Pyxis Fabric Softener, concentrated laundry softener that makes laundry soft and fluffy. Reduces static cling and makes ironing easier and faster.

Laundry Detergent: Ecolution Hypoallergenic Laundry Detergent, concentrated detergent specifically formulated for institutional machines.

Please review label and SDS on stateindustrial.com for all product directions, precautions and first aid information.

TECHNICAL DATA:

APPEARANCE: clear, pale yellow liquid

ODOR: chlorine

DENSITY: 10.0 lbs/gallon

pH: 12 - 14

SODIUM HYPOCHLORITE: >12%
